Search engine optimization (SEO) is the process of affecting the visibility of a website or a web page in a search engine's "natural" or un-paid ("organic") search results. In general, the earlier (or higher ranked on the search results page), and more frequently a site appears in the search results list, the more visitors it will receive from the search engine's users.

For details, visit www.websitesoptimization.co.za

Daniel Web-Builders and Marketing

1- Standard SEO Package: R500 per Month

SEO consulting of high technique will help you:

- find your customers' intent, needs and pressing problems
- identify their expectations from your business or website
- decide how you will deliver value (on the landing page)
- uncover areas of profitability
- pick triggers that convert visitors into customers: LEAD GENERATION
- personalize the experience for each visitor
- New: get and benefit Google Places and Google +, Twitter, Facebook and LinkedIn (Landing Pages and Interactions with your website)
- >>Free Google Ad words account and Campaign may be created on demand. We reserve the right to create or not a Google Ad words account, this depends on the status of your website.

Your website will then be listed both on Organic Search and Pay Per Click (when you directly pay Google).SEO is a perfect investment for your business marketing success, but this should not be Cost, it is an investment: **YOU PAY ONCE OFF FOR A LONG TIME.**
