“**AUCTION WEB DESIGN PROGRAM**” is a complete solution for an online **Auction Platform**. Anyone can register and enlist their product for auction for basic or featured fee. User can buy product by bid or direct buy option. Admin will get profit from the basic and featured fee as well as from the withdraw percentage. Everything is dynamic and can setup from admin panel. This CMS Includes almost everything you need to manage an online auction platform and fully responsive for any device. Admin can manage complete website without single stress. The program has strong SQL injection protection system which will keep away this system from hackers.
